

TEACHER CERTIFICATION IN PHYSICS

Description of the Teacher Certification in Physics Program

Certification as a middle school (grades 5-9) or secondary (grades 9-12) Physics teacher in either Kansas or Missouri requires that a student complete specific requirements from the School of Education and take coursework in Biology, Chemistry, Environmental Science, Geology, and Physics.

Students will enter this program through the School of Education. For further information about the program, consult the School of Education section of this catalog (<http://catalog.umkc.edu/colleges-schools/education/>), visit the School of Education web site (<http://education.umkc.edu/>), or contact the Education Student Services Office at (816) 235-2234.
