

MASTER OF MUSIC EDUCATION

Student Learning Outcomes

Students graduating from this program will:

- MME students will investigate contemporary educational trends and their impact on their classrooms.
- MME students will expand their musicianship skills in performance, rehearsal, and classroom environments.
- MME students will reflect upon their own practice as music educators and make connections to their classrooms.
- MME students will investigate and design creative teaching approaches and techniques.
- MME students will use research related to music teaching and learning to help design music materials, curriculum, and assessment tools.
