

MINOR IN PUBLIC HEALTH

Student Learning Outcomes

Students graduating from this program will:

- Apply knowledge of the science of public health into inter-professional practice.
- Create (plan, implement and evaluate) evidence-based public health programs relevant to the needs of the community.
- Demonstrate professional conduct, strong inter-professional skills, and knowledge of the roles and scope of practice of public health providers in accordance with the Council on Linkages Competencies initial level of competencies for public health.
- Identify the specific challenges and opportunities in a population based approach to improving the health of the public.

Students must earn a minimum grade of C- in all minor coursework.
