MINOR IN PUBLIC HEALTH

Student Learning Outcomes

Students graduating from this program will:

• Apply knowledge of the science of public health into inter-professional practice.
• Create (plan, implement and evaluate) evidence-based public health programs relevant to the needs of the community.
• Demonstrate professional conduct, strong inter-professional skills, and knowledge of the roles and scope of practice of public health providers in accordance with the Council on Linkages Competencies initial level of competencies for public health.
• Identify the specific challenges and opportunities in a population based approach to improving the health of the public.

Students earning a Minor in Public Health must earn a minimum grade of “C-” in all Health Sciences courses. This means that a grade below a “C-” in a Health Sciences course will need to be repeated to earn a passing grade.
