UMKCUCollege@umkc.edu

Mailing Address
University of Missouri-Kansas City
5100 Rockhill Road
Kansas City, MO 64110-2499

Dr. Andrea Carr; Career Development Specialist

Dr. Kim McNeley; Vice Provost Curriculum and Assessment

General Information

What is University College?

University College is an administrative structure that coordinates the overall academic experience of incoming exploratory/undecided students and continuing students in transition between majors. University College is a portal to the ultimate academic unit in which the student will be granted a degree.

Exploratory or Transitioning Student

Exploratory students are students that are evaluating their options prior to selecting a major, whether at the time that they enter UMKC or after realizing their initial decisions regarding a major are not what they want. Nationally, a large percentage of students entering colleges and universities are unsure of their academic plans. Estimates indicate that as high as 70% of students change their major at least one time during their academic careers.

Mission

Our mission is to offer every exploratory or transitioning student the opportunity for success through the engagement with faculty and staff, the development of educational plans, the clarification of academic and career goals, and the understanding of the skills developed through UMKC Essentials.

The University College will contribute to the University through the development of a focused community of staff, students, and faculty with a shared responsibility for each student's achievement of advising goals and progress toward degree completion.

Explore, Network, and Decide

Exploratory students are expected to take an active role in their education through systematic exploration, networking, and active decision making. University College students will partner with UCollege Staff, Exploratory Roo Advisors, and other important UMKC Faculty and Staff for support in this process.

Cross-Campus Collaboration

The mission of University College is impossible without a multidisciplinary participation and collaboration among all undergraduate academic units. Students in University College explore academic options across the University. Faculty and staff selected to support students through the exploratory process are purposely drawn from a breadth of disciplines. Close collaboration between UCollege and all academic units is critical to the successful exploration and ultimate transition of students to their most appropriate academic homes in one of UMKC's schools.

Academic Advising

Exploratory Advisors and UCollege Staff will partner with each student in the development and completion of educational goals; will provide cross-college academic advising and connections with potential academic units, and will facilitate ongoing support and evaluation of each student's progress.

Engagement Expectations

- **Fostering Academic Success**
Exploratory Advisors and UCollege Staff will partner with each student in the development and completion of educational goals. Exploratory Advisors will provide academic advising and connections with potential academic units, and facilitate ongoing support and evaluation of each student's progress. Students are required to regularly engage with their UCollege Team and Exploratory Advisor for Strategic Planning, Enrollment Planning, and End of Term check in sessions during each term (at a minimum).
- **Registration Approvals**
All University College students are required to secure an UCollege approval to register for classes. To gain this approval, students must fully participate in enrollment advising expectations set by Exploratory Advisors and UCollege Staff prior to enrollment. This advising may include contact with other academic units and/or the completion of additional assessment so that course selection may be optimized.

Students' registration must include enrollment in a least one course led by a University College instructor each semester. The appropriate University College seminar and UMKC Essentials curriculum may be administratively added to students' enrollment to ensure that students are making purposeful progress toward major selection.

- Declaration of Major

All UCollege students are required to complete process of a Declaration of Major with the appropriate academic unit and the University Registrar. All UCollege students will be advised of the advising process of the academic unit to which they are transitioning.

Enrollment

- Enrollment for Term

Students must enroll in all required courses and make appropriate selections from optional courses as discussed and documented in their enrollment advising meeting.

All UCollege students should complete enrollment, prior to the first day of classes. All changes to courses approved during enrollment advising should be confirmed by Exploratory Advisors and UCollege Staff.

All UCollege students on academic alert, notice, warning, or contract are required to complete enrollment prior to the first day of classes. After this day enrollment holds will not be lifted, and therefore no enrollment will be permitted for the term.

- Adding/Dropping a Class

Additions of courses after the first week of classes are deemed unusual and typically negatively impact students' ability to succeed. Students wishing to add/drop after the published deadlines must petition UCollege for an exception to normal academic policy. Forms submitted after the published deadlines must be accompanied by an appropriate, approved petition.

- All UCollege students on academic alert, notice, warning, or contract are required to complete all courses required by their Exploratory Advisor and documented in their enrollment advising.

Academic Standing Related To Grade Point Average

Undergraduate degree-seeking students' academic status is assessed at the end of every term, whether the student is full-time or part-time for that term. A summer session is considered the same as a semester for the purpose of the following regulations. Students are responsible for knowing their academic status by referring to Pathway and their permanent transcript.

Academic Standing Types

- Good Standing: In general, students will remain in good standing when their UM cumulative GPA is above a 2.0.
- Academic Alert: First time college freshman admitted to UMKC on the basis of high school records, who have a UM cumulative GPA between 1.50 and 1.99 at the end of the first semester of either full or part-time study will be placed on academic alert. Students on academic alert must achieve a 2.0 UM cumulative GPA by the end of their second semester or be placed on academic notice. After that, they would be subject to the regular academic standing requirements. First time college freshman placed on academic alert who have earned 60 or fewer college credits will be required to enroll in UNIV 100 – Academic Development in their next term of enrollment or the next term in which the course is offered.
- Academic Notice: Undergraduate students will be placed on academic notice whenever their official UM cumulative GPA falls below 2.0 (C average). Students on academic notice must achieve a 2.0 UM cumulative GPA by the end of the subsequent term (including summer) or be placed on academic warning. Students placed on academic notice who have earned 60 or fewer college credits will be required to enroll in UNIV 100 in their next term of enrollment or the next term in which the course is offered. First time college freshman admitted to UMKC on the basis of high school records, who have a UM cumulative GPA less than 1.50 at the end of the first semester of either full or part-time study will be placed on academic notice. Students on academic notice must achieve a 2.0 UM cumulative GPA by the end of their second semester or be placed on academic warning. Students with a term GPA and cumulative GPA below 2.0 at the end of their second semester will be dismissed. Transfer, visiting, and re-admitted students can also be admitted to UMKC on Academic Notice. When students are admitted on Academic Notice, they must achieve a 2.0 UM cumulative GPA by the end of their first term to be moved to good standing. Students that earn a term GPA of 2.0 or higher in their first term but their UM cumulative GPA remains below a 2.0 will be placed on academic warning. Students with a term GPA and cumulative GPA below 2.0 at the end of their first term will be dismissed.
- Academic Warning: Students on academic warning must achieve an overall 2.0 UM cumulative GPA by the end of the subsequent term (including summer) or be placed on academic dismissal.
- Academic Contract: Students can also be placed on (or admitted on) a GPA contract. Contracts are term based. If a student's term GPA is higher than the GPA stated in the contract, they will remain on said contract until the UM cumulative GPA reaches 2.0 (or the GPA level established by the academic unit). The first term that a student's term GPA falls below the GPA stated in the contract, the student will be placed on academic dismissal.
- Academic Dismissal: Students on academic dismissal will be ineligible to enroll in coursework. Students may apply for readmission one calendar year after dismissal and should contact their academic advisor or the academic unit of the program to which they wish to be admitted for further guidance.

Students on academic alert, notice, warning, or contract will be restored to good standing whenever the UM grade-point average reaches 2.0 or the GPA level established by their academic units.

UMKC students transitioning from an academic unit into University College will be reviewed under the above stipulations. Students on academic alert, notice, warning, or contract from another UMKC academic unit may be admitted into University College. University College reserves the right to review

enrollment expectations and adjustments may be necessary to ensure positive career development. Students on academic dismissal must submit a Petition for Reinstatement to University College for consideration for enrollment in the subsequent term after dismissal. Petitions must be reviewed prior to the start of a term for consideration.

Dean's List – Term Performance

The Dean's List is a recognition of excellent academic performance. Students must complete a minimum full-time program of 12 graded hours to qualify for the dean's list with a minimum of a 3.5 grade.

University Requirements

General Education

UMKC Essentials is the university-wide curriculum that all undergraduate students will complete. The 30-credit hour program includes a First Year Experience course; three critical thinking courses in the areas of Arts & Humanities, Natural & Physical Sciences, and Social & Behavioral Sciences; a course in Culture and Diverse Perspectives; a course in Civic & Urban Engagement; two courses in Written Composition and one course in Oral Communication; and a Math Pathway course. Transfer students entering UMKC will elect from the UMKC Essentials General Education Program or the Missouri Core 42 General Education Curriculum. Academic advisors will meet with incoming transfer students to determine which option best serves the student's educational needs. More information about General Education may be found on the General Education Requirements (<https://catalog.umkc.edu/undergraduate-academic-regulations-information/general-education-requirements/>) page.

Constitution Course

Every undergraduate student must take a course covering the United States Constitution and the Missouri State Constitution before graduation. Course options are included in the program requirements section below.

Exit Examinations

Information on exit examinations is available in the Undergraduate Academic Regulations and Information (<https://catalog.umkc.edu/undergraduate-academic-regulations-information/graduation/exitexams/>) section of the catalog.

Missouri Higher Education Civics Achievement Examination

In accordance with Missouri Senate Bill 807 (section 170.013.1), 'any student entering a public institution of higher education for the first time after July 2019 who is pursuing an associate's or bachelor's degree from such institution shall successfully pass an examination on the provisions and principles of American civics with a score of seventy percent or greater as a condition of graduation from such institution'. To satisfy this requirement at UMKC, students access the exam through the Canvas site. This requirement will be listed in the degree audit system as, 'Take State Mandated Missouri Higher Education Civics Achievement Examination', and listed on the transcript as 'Missouri Civics Examination'.

Student Learning Outcomes

Students participating in the program will:

1. Explain personal information related to career and academic exploration gathered through assessment and reflection;
2. Summarize information about possible majors and career paths using multiple reliable sources;
3. Identify and engage with relevant faculty, staff, and community contacts to further career and major exploration;
4. Articulate level of fit between self and majors/careers under consideration, including limitations or challenges with fit;
5. Identify challenges in career decision-making process; and
6. Prepare a plan to achieve academic and career goals, including declaring a good fitting major

University College Requirements and Regulations

Progress Toward Decision: Admission/Declaration

Hours Completed

- During the term in which the completion of **45 hours** credit hours of acceptable college work occurs and admission requirements have been met, students will complete the administrative process of transitioning to the ultimate academic unit in which their degree will be granted. Declaration of major and/or admission processing must be completed by 20th day of the following term.
- Students transferring into UMKC with greater than **45 hours** of acceptable college work will be required to meet all admission requirements during their initial Fall or Spring term at UMKC. Declaration of major and/or admission processing must be completed by 20th day of the following term.
- Students unable to make a decision regarding their major by the guidelines noted above must provide a plan for the upcoming academic semester and/or requirements and petition University College for permission to continue.
- Purposeful/Required Course Enrollment to Support Decision-making
 - All University College students will enroll in the appropriate level University College seminar course(s) during both Fall and Spring semesters. These courses are: GEFSE 101 (designated Exploratory Sections), UNIV 102, UNIV 202.

- Early and continuous enrollment in the appropriate UMKC Essentials courses, as well as, mathematics courses as required depending upon the student's selected exploratory Major Academic Pathway (MAP).
- A grade of C- or higher is required in UNIV 102, UNIV 202, GEFSE 101, ENGLISH 110 ENGLISH 110 ENGLISH 110 ENGLISH 110, ENGLISH 225, and/or MATH (100 or 200 level) courses.
- Critical courses will be designated for each plan of study based on academic unit recommendations.
- Required courses for each enrollment term will be determined by the student's Exploratory Advisor and UCollege Staff based on the student expressed academic interests.

University College Requirements focus on the completion of the UMKC Essentials or Core 42 General Education that build foundational skills required for all fields. Students select one of five exploratory Major Academic Pathways (MAPs) and utilize both UMKC Essentials and specified Major Critical Courses to explore and identify their optimal academic plans (degrees, majors, and minors). See Major Academic Pathway Tab for more details, exploratory courses, and first year plan of study.

Major Academic Pathways

Major Academic Pathways

University College students will focus their exploration using Major Academic Pathways (MAPs) that group majors with shared interests, skills, and similar career outcomes together. Students will work with Exploratory Advisors and UCollege Staff to identify relevant MAPs to support their curricular and exploratory choices. See a brief description and exploratory curriculum linked for the five MAPs below:

Arts and Cultural Studies (<https://catalog.umkc.edu/colleges-schools/university-college/map-arts-and-cultural-studies/>)

This MAP houses the majors at UMKC that have a focus on creative and expressive disciplines. Individuals with interests in visual and performing arts and/or languages, writing, and literature are encouraged to explore these fields.

Human Behavior, Education, and Justice (<https://catalog.umkc.edu/colleges-schools/university-college/map-human-behavior-education-justice/>)

Students will find areas with an emphasis on people (across the life-span, individually, and in groups) in this MAP. Those curious to understand and impact human's thoughts, actions, emotions, learning, relationships, and communication from various perspectives are invited to evaluate these majors.

Business and Management (<https://catalog.umkc.edu/colleges-schools/university-college/map-business-and-management/>)

The data driven understanding of the business and the financial world drives the majors in this MAP. Students seeking opportunities to engage in areas related to human resource management, marketing, entrepreneurship, finance, business analytics, and accounting may find interest in these disciplines.

Numbers, Engineering, Technology, and the Cosmos (<https://catalog.umkc.edu/colleges-schools/university-college/map-numbers-engineering-technology-and-cosmos/>)

Majors with an emphasis on physical, structural, and mathematical understanding are housed in this MAP. Students with a desire to engage in fields related to technology, Earth and the Universe, engineering, urban planning, and physics may be curious to explore in these areas.

Natural and Health Sciences (<https://catalog.umkc.edu/colleges-schools/university-college/map-natural-and-health-sciences/>)

This MAP has a foundation in physiological, chemical, and biological processes. People seeking opportunities in health care (patient care, administration, promotion, and prevention), laboratory science, and scientific industries may find a fit in these fields.
