

APPLICATION FOR GRADUATION

Application for graduation is required and should be filed with the Registrar's Office before enrolling in the final 30 credit hours of coursework. Students should complete the graduation application in Pathway. In some circumstances, a paper application completed by the student may be required and should be turned in to the student's home School or College (Academic Unit). In the event a paper application is required, the academic unit will send the graduation application to the Registrar's Office. The application must be submitted no later than the deadline date published each semester in the on-line UMKC Academic Calendar in order to graduate for that semester.
